

ST. FRANCIS OF ASSISI BEC 7

BEC Profile

We have 10 families and 2 Nursing Homes in our community.

BEC 7 Patron Saint :

St. Francis of Assisi was known for his charism of his affiliation to nature, the fact that he was chosen by God to rebuild the church and he had actively chosen a life of poverty and prayer. He is a model of a servant of God that we can try to emulate and grow in our spirituality and closeness to God.

Our BEC Activities & Support

BEC members participate in and are supportive of Church activities organised. Members according to their availability, have participated in events such as zone masses, environment conversion activities such as recycling programs, youth programs, taking Holy Communion to the homebound and ongoing support for the poor especially development aid for the Orang Asli in Pahang.

Interaction and Neighbourliness & Spirituality

Members have known each other since the BEC was established. They work together to support and participate in church and BEC organised activities such as retreats and outreach. Hence they are more like family members than just neighbours. They use the reflection leaflet to reflect on the word and share their reflections during meetings.. There is a strong devotion among the members to Mother Mary as a model of faith and trust in God.

BEC VISION

A community of disciples supporting each other in their faith development towards the proclamation and in witnessing to the values of the Reign of God.

BEC MISSION

Reaching out to all persons and building relationships in our neighbourhood and living our faith by caring for and serving others within and beyond the community.
